| arjunsharma.dev

PROFESSIONAL SUMMARY

Python-focused Software Engineer with 3+ years of experience building backend applications, REST APIs, data pipelines, and AI-powered solutions. Experienced with Flask, FastAPI, SQL, Docker, AWS, machine learning, NLP, and generative AI. Strong problem-solving, communication, teamwork, and project management skills.

TECHNICAL SKILLS

Programming: Python, Java, JavaScript, SQL

Frameworks: Flask, FastAPI, Django, React, Node.js

Data/ML: Pandas, NumPy, Scikit-learn, TensorFlow, PyTorch, NLP, Machine Learning, Deep Learning

AI: Generative AI, LLM, RAG, Prompt Engineering, Sentence Transformers

Databases: MySQL, PostgreSQL, MongoDB, SQLite, Redis

Cloud/DevOps: AWS, Docker, Kubernetes, Linux, Git, GitHub

Visualization: Power BI, Tableau, Excel

Soft Skills: Leadership, Communication, Teamwork, Problem Solving, Critical Thinking

PROFESSIONAL EXPERIENCE

AI Solutions Pvt. Ltd. — Software Engineer

Bengaluru, India | Jan 2024 – Present

- Developed Flask and FastAPI REST services for internal business applications.
- Built NLP pipelines for extracting information from unstructured documents.
- Integrated machine learning models into production APIs and improved response time by 30%.
- Designed PostgreSQL schemas and optimized SQL queries for reporting workloads.
- Containerized applications using Docker and deployed services on AWS.
- Collaborated with product, QA, and data teams using Git/GitHub workflows.

DataWorks Technologies — Junior Python Developer

Pune, India | Jul 2022 – Dec 2023

- Developed Python automation tools that reduced repetitive manual tasks.
- Created data processing workflows using Pandas and NumPy.
- Built dashboards and reports using Power BI and Excel.
- Implemented unit tests and participated in code reviews.
- Worked with MySQL and MongoDB for application data storage.

EDUCATION

M.Tech in Artificial Intelligence — National Institute of Technology

2022 – 2024 | CGPA: 8.7/10

B.Tech in Computer Science and Engineering — ABC Institute of Technology

2018 – 2022 | CGPA: 8.4/10

PROJECTS

Personalized Interview Preparation System

Technologies: Python, Flask, SQLite, NLP, Sentence Transformers, Scikit-learn

Built an AI-powered platform that parses resumes, extracts skills, identifies skill gaps, generates personalized interview questions, evaluates answers, and tracks interview progress.

Customer Support RAG Assistant

Technologies: Python, LLM, RAG, Sentence Transformers, PostgreSQL

Developed a retrieval-augmented assistant that searches company documentation and produces context-aware responses for customer support queries.

CERTIFICATIONS

- AWS Certified Cloud Practitioner — Amazon Web Services — 2024
- Machine Learning Specialization — Online Certification — 2023
- Python for Data Science — Online Certification — 2022

LANGUAGES

English — Professional | Hindi — Native | Kannada — Conversational

ACHIEVEMENTS

- Won 2nd place in an inter-college AI hackathon.
- Recognized as Employee of the Quarter for automation and process improvement.
- Mentored two junior developers on Python and Flask development.
